

Neo is the two in one solution: Time & Attendance + Access Control function.

This solution combines a sleek and fashionable design with a high and reliable performance.

The innovative biometric terminal has been developed with cutting edge technology which uses BioNANO® Core Fingerprint Algorithm with high speed and stability. Neo is the best option for customers requiring to improve their T & A and Access Control processes with a limited budget.

T&A

Identification

Access

- TCP/IP, USB, RS485 Communications
- Dry contact output for door opening
- Identification method: Fingerprint, Fingerprint + ID, ID + Password
- Fingerprint capacity: 2,000
- Record capacity: 50,000
- Identification speed: < 0.5 second

Features

- Sleek and elegant design, suitable for office environments
- USA TI 300 MHZ high speed processor
- BioNANO™ Core Fingerprint Algorithm of high speed and stability. It heals broken fingerprint lines; intelligent fingerprint templates update
- New generation fully sealed, waterproof and dustproof fingerprint sensor
- User name display and human voice prompt
- TCP/IP, USB, RS485 Communications
- Dry contact output for door opening
- Identification method: Fingerprint, Fingerprint + ID, ID + Password
- Fingerprint capacity: 2,000
- Record capacity: 50,000
- Identification speed: < 0.5 second
- Size: 200 mm(w) * 140mm (h) * 38mm (d)

Neo builds-up BioNano® Technology, new generation identification fingerprint algorithm with high speed and stability. BioNano® heals broken fingerprint lines and updates fingerprint templates (intelligent function).

Specifications

Sensor	Optical	Working current	0.5A
LCD (Res)	128 x 64 Blue	Sleeping current	0.5A
Identification method	Fingerprint, ID + Fingerprint, ID + Password	ESD Tolerance	>15,000V
Identification time	< 0.5 Sec.	Power	DC 12V
Register method	Fingerprint, Password	Temperature / Humidity	-10 - 60°C / 20 - 80%
Fingerprint capacity	2,000	Material	ABC Plastic
Record capacity	50,000	Size	200 mm(w) * 140mm (h) * 38mm (d)
FRR	0.001%	Color	Black
FAR	0.00001%	Scan area	22 x 18 mm
Communications	USB, RS485, TCP/IP	Resolution	500 dpi
Access control	Dry contact output		
Relay capacity	2AMP @ 30V		

About EasyWay Biometrics

EasyWay Biometrics is the new brand of innovative fingerprint solutions for Time & Attendance and Access Control needs. Every EasyWay terminal has been designed with international quality standards, combining fashionable design with outstanding performance

EasyWay uses the latest technology to create products that provide a functional solution for customers who need low cost T&A and Access Control solutions.
